

Personal Statement
Arthur Wang

Hello all, my name is **Arthur Wang** and I am running for the **Vice President position of the HCC** campus. I would like to contribute to our **SGA fundraising** activities.

I have over 4 years of fundraising experience. With help from our generous community, my sister and I have successfully raised over **\$2600 for Ellicott City flooding**. Last year, I designed a **2019 pig T-shirt and greeting card**. I raised **\$1000**, half of which went to our SGA OCEF foundation.

Last year, I initiated and led the **SGA Halloween Costume Trade-In event**. It went very successfully with everyone's support. Many SGA members participated and we all had a lot of fun.

I am happy to share my fundraising experience with others. I also enjoy working as a team. By having a leadership position, I believe it will help me motivate others to participate in more SGA fundraising activities. I also believe it will inspire other kids to take initiative like I did for the Halloween Costume Trade event.

If I become Vice President, I would like to take care of the OCEF fundraisings. Instead of randomly donating the money to the OCEF foundation, we could consider using it in a different way like supporting some kids continuously for a few years. Then we are able to watch the difference what we made to others. With this visible influence, it will definitely inspire and encourage more kids to join the life-changing program.

Besides our traditional well-done bakery sale and Chinese New Year Gala food table, we may start some other **new programs** to raise funds.

One project I think that is highly workable is to make an **all-in-one school calendar**. HCPSS has a school calendar, and HCCS has its own calendar which is mostly aligned with HCPSS but slightly shifted. HCC has its own calendar, so does CHS. Parents have to check a few places in order to make plans for vacation or activities. Could we combine all three calendars together to make an all-in-one calendar which will make the parents' lives easier? We could include some students' art work, photos, or Chinese elements to promote our school. We could also accept commercial Ads by charging a certain amount of money which is also a fundraising. We could sell them when school opens in the fall. I believe the potential market is pretty promising. On the other hand, we may need to build up a calendar team to work in the summer. Please contact me if you are interested.

You must have more and even better ideas. Please vote for me first and come talk with me! We could do a better job together, and become a better us!

Thank you all for voting me!
