

Hello, my name is Kevin Teng, and I am a rising Sophomore at Chinese School. I have been in the SGA since October 2023, and have been an officer (Information Technology Admin) since January 2024.

I joined the SGA because I thought that it would be a great opportunity to meet new people, get involved with the community, and help others.

So far, I have been to many SGA activities, including selling books, helping with SGA-organized activities and events, working on the safety video, volunteering in the Youth Garden, and many more. In every one of these volunteering opportunities, I met and worked with many SGA members and friends, learned a lot about teamwork and organization, and enjoyed helping others out.

Here I am applying for the SGA Vice President position, because I would like to get involved in more SGA activities, put my past experience into work, and contribute more effort into all kinds of opportunities to make our community better. It will be a great opportunity to develop and showcase leadership abilities in a familiar setting as the Vice President of the SGA.
