

Hello everyone, my name is Livia Zhao and I'm running for the HCC campus Vice President. I'm currently a rising 9th grader in Chinese School and a rising 8th grader at Clarksville Middle School.

I am seeking this position for two main reasons. I have really enjoyed participating in SGA because it gives me an opportunity to make new friends and build teamwork skills. Working together in an environment like this is a very valuable opportunity, and I want to be even more involved in this group as a vice president so that I can continue to serve the community while having fun. That brings me to my second and most important reason for running for this position, which is the fact that I want to help make a difference. I truly believe that I can achieve this by making a bigger contribution to the SGA.

For the past two years, I have been an active member of the SGA in many different events. In this school year, I have served the SGA for over 50 hours at more than 10 different events and activities, including the bake sale, the teacher appreciation day flower sale, and our school's big Chinese New Year celebration. Using my past experience at each of these events, I helped guide new members and helpers. I have also worked a lot on individual tasks, such as creating donation boxes and posters. I have also helped recruit new members and encouraged them to be more active SGA members.

As Vice President of the HCC campus, I hope to develop valuable teamwork and communication skills and gain more leadership experience. I want to make a bigger contribution to our team and encourage others to contribute more as well. If I am elected, I will ensure that all events on my campus will run effectively and smoothly. My goal is to work with other members on exploring new ideas and possibilities for the HCCS SGA, including more local service opportunities and different forms of events outside of fundraisers.

Because of my experience at several events, I feel that I am ready to take on more responsibilities and be a leader of the SGA. I aspire to bring new, creative ideas to the table and become a more valuable, helpful member of this team. Most importantly, I hope to make an impact and give back to our community.
