

I am seeking a position as Vice President so that I can have a larger and more profound impact on our Chinese School. I feel that I am a viable candidate, as I have served 2 years on SGA, with the last being the treasurer for the Saturday school. Not only this, but I have experience running for SGA at more normal school (Burleigh Manor) and have taught classes at my kungfu school. This year, I would like to create more fundraising opportunities and want to generate far more revenue. Using this, I would like to continue supporting students in China, but also provide materials and other essentials to help our students learn.
